Bring Your School's Vision to Life

How can Aspire help your school?

When information technology initiatives align with the strategic goals of an academic institution, the impact can be transformative. Integrating the right technologies can empower faculty to enhance students' learning experience, create competitive advantage, and allow administrators to be more efficient in their mission.

Enrich both in-classroom and remote teaching and learning experiences. Aspire supports the primary mission of education – to give every student the opportunity to achieve success.

We deliver forward-thinking technology solutions that lay the framework for optimized facilities, empowered educators, informed administrators, and innovative student learning environments.

We build next-generation secure networks and collaboration architectures to support digital learning initiatives and improve security for a safer and more productive environment for students and faculty.

Aspire's K12- Solution Areas

Teaching & Learning	Student Success	Security	Internet of Things
Learning Spaces	Student Engagement	Secure Access	Digital Rooms / Buildings
Distance Learning	Active Learning Rooms	Advanced Malware Protection	Connected Campus
Academic Research Computing	Data Analytics	Endpoint Security	Cameras and Sensors
Learning Management Solutions	Mobile Device Learning	Multi-Factor Authentication	Transportation
Immersive Video	CRM	Email Security	Parking
Information Commons – Library	Machine Learning	Data Protection	Connected Bus
	Artificial Intelligence	Emergency Notification Systems	HVAC and Connected Utilities
		Physical Security Equipment	

K12 Funding Opportunities

E-rate

E-rate funding is a critical asset for many schools looking to modernize their network infrastructure, deploy dependable Wi-Fi, and lay the groundwork for students' success.

Aspire possesses extensive experience helping schools maximize E-rate dollars to overcome budget or funding shortfalls, and to provide students with the connectivity and technology they require to achieve their academic mission.

Grants

From Federal and State to Foundation Grants, there are many other other funding opportunities that are available to help schools expand and upgrade their systems and equipment. Aspire partners with accredited organizations to help you create a grant funding roadmap and determine the eligible technology equipment and services for your school.

ESSER II

Reopening schools safely is a top priority for education leaders and those leading the highest offices of local, state, and federal government, and new funding is available from the Elementary and Secondary School Emergency Relief Fund II (ESSER II Fund) to support a safe reopening of your school.

The additional funding will assist LEAs in safely reopening schools, measuring and effectively addressing significant learning loss, and taking other actions to respond to the impact of COVID19- on educators, students, and families, such as the development of mental health programs in school and the purchasing of educational technology solutions that effectively aid in interactions between students and their classroom instructors.

Take advantage of the ESSER II funding before the May 14, 2021 deadline.

Start the Process Now

Aspire is here to help your school!

We are more than your technology partner. We work with your school to meet your E-Rate and other funding requirements, and to implement the necessary eligible technology equipment that supports the ongoing needs of your school.
